- **UI/UX:** Figma, Canva
- **Programming:** C, Java, Python(Basics)
- **Soft skill:** Problem Solving, Communication, Leadership, Team collaboration, Adaptability
- **Type Writing:** Junior Grade English: First Class with Distinction.

PROJECTS

- **YouTube Channel Website for Movie Reviewer** – Ui design(Figma) [design](#)
Served as the UI Designer for a YouTuber's website, transforming his movie review channel into an engaging online platform. Utilized **Figma** to craft a visually appealing, user-centric design that enhanced overall user experience and brand presence.
- **JWT Authentication Login Page** – Mern Stack
Developed a secure login platform using Vite, Tailwind, Node.js, Express.js, and MongoDB, integrating **JWT token verification** to ensure robust authentication. Demonstrated proficiency in modern web development practices, security protocols, and authentication mechanisms.
- **Bus Ticket Booking Application** – Java Swing, JDBC
Developed a bus ticket booking application using Java Swing for the user interface and connected it to MySQL database using JDBC for data management. Implemented features for ticket booking, user management, and real-time data updates.
